

## Lab Links

- Lab Tests Online: [www.labtestsonline.org](http://www.labtestsonline.org)
  - This site is a public resource on clinical laboratory tests. It can assist a patient, caregiver or healthcare provider in better understanding the many lab tests that are a part of routine care as well as the diagnosis and treatment of a broad range of conditions and diseases.
- ARUP: [www.aruplab.com](http://www.aruplab.com) and <http://www.arupconsult.com/>
  - ARUP Laboratories is a national clinical and anatomic pathology reference laboratory that offers an extensive menu of highly complex and unique tests. It is the main reference lab used by TriHealth.
  - ARUP Consult is a support tool provided by ARUP Laboratories at no charge to assist the clinician with test selection and interpretation. It includes nearly 2,000 lab tests categorized into disease-related topics and 50 algorithms to support clinical decision-making.
- BD Diagnostics: [http://www.bd.com/vacutainer/products/venous/plus\\_plastic\\_tubes\\_docs.asp](http://www.bd.com/vacutainer/products/venous/plus_plastic_tubes_docs.asp)
  - BD Diagnostics is a leading provider of products for the safe collection and transport of diagnostic specimens. This site provides information about BD manufactured vacutainer tubes and other products, including instructions for use.
- HealthBridge: <http://www.healthbridge.org/>
  - HealthBridge is one of the nation's largest and most successful community health information exchanges. It represents nearly 95 percent of the hospital sector activity in the Cincinnati region. Through its clinical messaging system, the largest community-based secure clinical messaging system in the country, it delivers millions of results (laboratory, radiology, transcription, and ADT) to thousands of physicians each month.
